

## BIOGRAPHY

**Ms. Irene M. Piatek**

***Manager, Crew Exploration Vehicle (CEV) Government Equipment and Materials (GEM) Office  
NASA JSC***

**Biography:**

Ms. Piatek is currently the CEV Manager for the Government Equipment and Materials Office. This office is responsible for the design, development fabrication and certification of various government furnished equipment items. This office is also responsible for early development of the liquid oxygen/liquid methane propulsion system components, thermal protection system, and landing attenuation system.

During the development of the OBSS, Ms. Piatek was the System Integration Manager and was responsible for the development of the system requirements, risk management, integrated system certification, integrated issue resolution, development, and approval request generation for all requirements waivers, integrated schedule, and integrated electrical schematics.
